

## DO YOU WANT TO CONTRIBUTE and spread knowledge about WIL?

In week 40 of this year (3rd - 7th of October) we are going to celebrate LINA, that has been a driving force in the development and research of Work-integrated learning (WIL), at University West for the past 15 years.

**To make this** an unforgettable event we ask for your participation. We welcome a variety of knowledge contributions (experiences, research, and developmental work) and in different presentation formats. For instance, workshops, panels, seminars, lectures or why not even simulations, storytelling, drama, or a "TED-talk"? Feel free to be creative, innovative, and be "crazy enough" in the design of your contribution.

**Right now, we** can already present that there will be a bildung track, lectures, workshops and key-notes from Yrjö Engeström, Annalisa Sannino, Stephen Billett and more to come!

**At the least** we hope you can make room in your calendar to join us as much as possible in week 40 of 2022!

**If you also** want to actively contribute to the programme - please send an e-mail with the following information:

Contributors, title, presentation format, date and preferred time, format- live or via zoom.

**Please save the date** for a gala dinner on Friday night on the 7th of October (self cost)!

**Hope to see you there!**  
Kicki & Sanna
